Profile

Dedicated Front-end developer with 2 years of hands-on experience in implementing and maintaining dynamic web applications. Proficient in Angular 14+ with a deep understanding of front-end technologies.

Professional Experience

Software Engineer *(Beinex)*   **Kochi, India**   *Apr 2023 - Present*

- Led Agile sprint planning, backlog grooming, and daily stand-ups, ensuring timely project delivery.
- Conducted regular code reviews, providing constructive feedback to ensure code quality and adherence to coding standards.
- Conducted knowledge-sharing sessions, fostering a culture of continuous learning within the team.
- Demonstrated proficiency in Angular Framework, utilizing its latest features to enhance user interfaces and improve overall user experience.
- Stayed updated with the latest industry trends and best practices in front-end development to bring innovative solutions to the team.
- Collaborated with product owners and business analysts to gather and clarify requirements, translating them into actionable development tasks for the team.
- Worked closely with back-end developers to understand API specifications, resolve integration challenges, and optimize API calls for improved performance.
- Collaborated closely with cross-functional teams, including back-end developers, QA engineers, and product managers, to streamline development processes and meet project deadlines.
- Implemented seamless integration of RESTful APIs, enhancing communication between front-end and back-end systems.
- Collaborated with UI/UX designers to transform concepts into visually appealing user interfaces.

Front-end web development trainee in Angular, *(Beinex)*   **Kochi, India**   *Jan 2023 - Mar 2023*

- Developed responsive web applications using HTML, SCSS, Bootstrap, and Angular.
- Enhanced user experience by implementing interactive features and dynamic components using TypeScript.

Online Courses & Certifications

- How to create a Jira SCRUM project (Feb 2025)
- Deloitte Technology Virtual Experience Program on Forage (Nov 2022)
- Machine Learning , Python programming (July 2018)

Project

Aurex *(Augmented Risk And Audit Analytics)*   *Apr 2023 - Present*

Risk and audit management platform with user-friendly data visualization solutions. It is a cloud-based platform that combines the 4 traditional siloed processes: risk management, audit management, audit analytics, and continuous audit, into one integrated platform.

Education

B.Tech Computer Science   **APJ Abdul Kalam Kerala Technical University**   *2022*

Skills

- **Languages and Frameworks:** Angular, Typescript, HTML5, CSS/SCSS, Javascript

- **Tools and Technologies:** Git, Jenkins, Eslint

- **Methodologies:** Agile, Scrum

- **Soft Skills:** Creative thinking, Team Collaboration, Problem-Solving, Adaptability

Interests

- Cooking
